

Dear colleagues and friends!

you find in front of you another newsletter with interesting news we hope.

We had two very successful workshops in the Third World:

1. Our Indian friends organized another rich meeting from December 28 to 30, 1988 in Hyderabad/A.P. around the theme of "Worker's Participation & Industrial Democracy". Once again practitioners and theoreticians met in fundamental discussions on the future of industrial democracy, namely in the second most populated nation in the world. You will find more details in the report.
2. From March 1 to 4, 1989 in Lima/Peru our Ibero-American Subcommittee organized the first Latin-American workshop and constituted itself formally after the first initiatives of such a move have been taken already in 1982 in Mexico during the World Congress. The theme was "Development, Self-Management and Popular Participation in Latin America and the Third World. Towards the Decade of the Nineties for Life and Peace".

Our next initiatives are:

1. The Lule...-workshop on "New Technology and Participatory Democracy" from June 12 to 16, 1989 is approaching and it is the last opportunity to register. So do not hesitate as there is still some space open.
2. Our first meeting in an East-European country will be in Sofia/Bulgaria from October 1 to 6, 1989 on "Social Needs, Ownership and Trade Unions".

and 3. you will find some more information on the next World Congress of Sociology from July 9 to 13, 1990 in Madrid/Spain and our activities there.

I hope that we will further progress in our efforts of mutual understanding, and that the activities and themes we propose do find your interest. We would like to have news on activities and interesting publications in the different parts of the world to be included. So please send us your material.

Looking forward remeeting or meeting you  
Yours sincerely

March 1989
